### Document Control

Version Number	Description	Release Date	Author
1.0	Initial Release	09/30/2002	Sunil Malhotra
2.0	Documented additional business logic and error validation.	11/08/2002	Sunil Malhotra
2.1	Incorporated changes from client reviews.	11/26/2002	Sunil Malhotra

## **1 General Information**

### **1.1 Background**

The National Student Loan Data System (NSLDS) was established as part of the Higher Education Act of 1965, as amended, to provide a comprehensive repository of information about Title IV aid recipients and their loans, grants, lenders, guaranty agencies, servicers, and schools.

Given these challenges, a project to modernize the system – NSLDS Reengineering – has been undertaken to improve financial and data integrity, reduce operational costs, and improve customer satisfaction. At the heart of the design for a reengineered NSLDS solution are five “big ideas” for radically changing the underlying processes, data structures, and technical platforms supporting the existing system:

- Data Warehousing
- Internal FSA (Federal Student Aid) Direct Access
- Outsourced Enrollment Tracking
- Financial Partner Data Feed Reengineering
- Common Record Extension

The first phase of the NSLDS Reengineering effort is called NSLDS II. NSLDS II Release 1 will focus on the Data Warehousing and Internal FSA Direct Access opportunities, as well as assessing ways to support existing requirements through NSLDS II or other modernized systems. Later releases of work will focus on the remaining three ideas and enhancements.

### **1.2 NSLDS Points of Entry Overview**

There are three main applications in the legacy NSLDS technical architecture that serve as the gateway for accessing and modifying Title IV data online. The applications include the Financial Aid Professional (FAP) website, Student Access Financial Aid Review (SAFAR) website, and the Customer Information Control System (CICS). As part of the NSLDS II replatforming initiative, CICS will be retired and its functionality will be transferred to the FAP website. The User Interface Inventory Matrix (**Reference Appendix B**) documents a comprehensive list of screens for the FAP and Student Access websites and the NSLDS functional area(s) they support.

The FAP website, which can be found at <http://www.nslidsfap.ed.gov>, will be the main user access point for NSLDS II data by Department of Education (ED) personnel, guaranty agencies (GAs), lenders, and schools. It provides support for users by tracking the financial aid and enrollment history for Title IV aid recipients, organizational information for Title IV aid financial partners, access to predefined reports, for some users, the ability to execute ad hoc

queries, and the monitoring of student transfers. A lender or school may also allow a servicer to access the website and provide online updates on their behalf. Each user must be registered with the website and can only log on with a valid User ID and Password.

The two major areas of enhancement for the FAP website will consist of the following:

1. Reengineering the existing reporting architecture
2. Retiring CICS

### **Reengineering the Reporting Architecture**

Reports are currently accessed through the Main Menu, which allows users to execute predefined reports and receive the results either in their SAIG mailbox or download them directly (depending on the users permission level). If a user requires data that is not supported by a predefined report, they are limited to either developing their own query or contacting the support center to develop a query for them. In order to create a query, a user must be familiar with Structured Query Language (SQL), which is the code used to develop a query, the NSLDS data model, whose data elements are used within the SQL, and the Query Management Facility (QMF) tool, which is the application used to execute the query. In order to empower users and improve the customer experience for executing ad hoc queries, the MicroStrategy reporting tool will be implemented. The MicroStrategy reporting tool is a commercial off-the-shelf (COTS) package that has the capability to filter and analyze massive volumes of data to the transaction level. In addition, the MicroStrategy application server has a full range of query optimization algorithms designed to ensure that data is extracted from a database in the most efficient and least resource demanding way.

The new ad hoc reporting functionality will continue to be accessible through the Main Menu and Report screens in the FAP website. The detailed design regarding the report screen changes can be found in the Report Detail Design document.

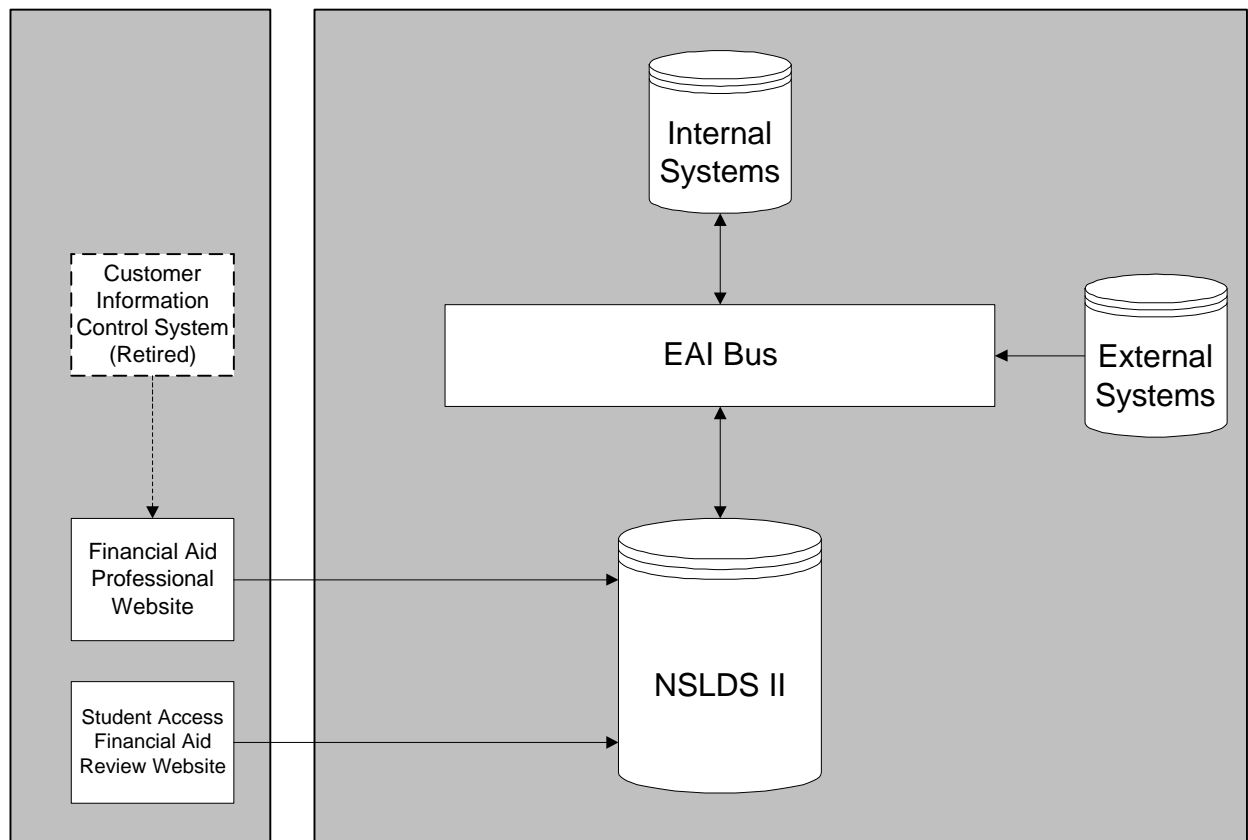

### **Retiring CICS**

CICS is IBM software that allows ED personnel to connect to the NSLDS mainframe and perform online transactions. Users have the ability to update or access data online from ED Headquarters or Regional offices. The majority of the CICS functionality has already been transitioned to the FAP website in response to user demand for a more user-friendly and flexible tool. The remaining functionality, which includes screens from the System Administration, Default Rate, and Student Status Confirmation menus will be transferred to the FAP website as part of the NSLDS II reengineering initiative. (This will complete the functionality transition to the FAP website, therefore, clearing the path for retiring CICS.) Once CICS has been retired, the FAP website will serve as the default application for ED personnel to access NSLDS II data.

The Student Access website, which can be accessed at <http://www.nsls.ed.gov>, allows borrowers to securely view and track their financial aid history. They have the ability to view their Title IV loans at a summary or at a detailed loan level. The summary loan level data allows a borrower to view all Title IV loans they are responsible for in a concise format. The

detailed loan level data tracks the history of each loan throughout its lifecycle. Each student must be registered with the website and must have a valid User ID and Password to logon. This is a read only website and does not have any update capabilities associated with it.

The following diagram displays the CICS application being retired due to functionality being transitioned to the FAP website during the NSLDS replatforming initiative.

**Figure 1, NSLDS II User Interface Diagram**

### **1.3 Screens Detail Design Document Layout**

The screens detail design document provides a blueprint for developing each screen that will support the FAP and Student Access websites. The screens detail design document is separated into the following modules:

#### **Financial Aid Professional website**

- Login-Menu – Contains the detail design for the Login-Menu screens.
- Financial Aid– Contains the detail design for the Financial Aid screens.

- Enrollment – Contains the detail design for the Enrollment screens.
- Organization – Contains the detail design for the Organization screens.
- Reports – Contains the detail design for the Reports screens.
- Transfer Student Monitoring – Contains the detail design for the Transfer Student Monitoring screens.
- Admin/Support – Contains the detail design for the Admin/Support screens.
- Appendix A – Global Attributes for FAP Website– Lists common icons that may be displayed in the Login-Menu, Financial Aid, Enrollment, Organization, Transfer Student Monitoring, and Admin/Support modules.
- Appendix B – Provides a comprehensive list of all the screens in the FAP and Student Access websites and their associated function groups.

### **Student Access Financial Aid Review website**

- Student Access– Contains the detail design for the Student Access screens.

This detail design document will contain the following information for each screen:

#### **1.4 Name of the Screen**

<b>Description</b>	Defines the purpose of the screen.
<b>New or Existing</b>	New – Indicates the screen is new to the website.  Existing- Indicates the screen previously existed on the website.
<b>User Group (Screen Level)</b>	Identifies which function group currently has access to the screen.
<b>Requirements Traceability</b>	Maps the detail design for the screen to the detailed requirements.
<b>Reference(s)</b>	Lists reference documentation that provides additional detail for each screen.
<b>Business Object</b>	Lists the Business Object the screen will utilize for development purposes.

##### **1.4.1 Software Unit Logic**

<b>NSLDS I File Name:</b>	Lists the file name for each screen that was used for NSLDS I (if the screen previously existed).
<b>NSLDS II File Name:</b>	Lists the file name for each screen that will be used for NSLDS II.
<b>Pre-Status:</b>	Lists the screen names and their links that will allow a user to access a specific screen.
<b>Post-Status:</b>	Lists the screen names that are accessible from a specific screen (and the links that will allow a user to navigate to that screen). When the

	user navigates to another screen, the screen will appear in the same window unless otherwise specified.
<b>Gif Name:</b>	List of Gif, or image, files used in the screen.
<b>Tab Order:</b>	Lists in numeric order of the tab order for each screen.

**Note:**

Section 3.1 (Class Diagram) of the Application Architecture Detail Design document identifies the ASP pages and the corresponding COOL:Gen Action Blocks (i.e., procedures). This will be used to further define the business logic, error validations and security in a later release.

### 1.4.2 Design Details

The following screenshot highlights the functionality of the screen:

Provides a design layout of the screen.

**Note:**

The screenshots depicted in this document were taken from the legacy website. The existing text, links, and data elements will be included in the NSLDS II website as described in this document. However, the actual look of the screens may be modified for the NSLDS II Release. Also, certain text, links, and data elements may be excluded from view based on the user's security access.

### 1.4.3 Screen Functionality

The following section lists and describes the functionality of each object on the screen.

Name of the Data Element on the screen	
Element	Type of data element (e.g., label, pushbutton, checkbox, textbox).
Definition/Business Rules	Description of the data element and any business rules associated with it.
Actions to be performed	Describes any action associated with the data element.
Business Object (Attribute)	Lists the Business Object(s) and Attribute(s) the data element will utilize for development purposes.
Validation	<ul style="list-style-type: none"> <li><i>Condition:</i> Describes the validation that will be performed.</li> <li><i>Message:</i> Describes the message that will appear to the user.</li> <li><i>Location:</i> Describes where the validation will</li> </ul>

Name of the Data Element on the screen	
	<p>occur (i.e., Client or Server)</p> <p><i>Additional Information:</i> Describes any additional information related to the validation (e.g., gif files appearing with error messages).</p> <p><b>Note:</b></p> <p>The validations occur one at a time and are not listed in any particular order. However, validations will occur from top to bottom and left to right on any given screen unless otherwise specified.</p>

**Note:**

Section 508 of the Rehabilitation Act of 1998 mandates a website accessibility review. Section 508 requires that electronic and information technology developed, procured, maintained, or used by Federal government agencies must be accessible to persons with disabilities. The system must allow a person with a disability to have comparable access to and use of information as a person without a disability.

The Assistive Technology Group within the FSA Technology Center is responsible for performing Section 508 reviews. During the Build phase, the NSLDS II Modernization Partner team will work with the Assistive Technology Group to verify that the design of the online screens meets Section 508 requirements. The FAP and Student Access websites are currently not Section 508 compliant. The formal accessibility review for NSLDS II will be conducted during the Test phase.

## 2 Screen Workflow

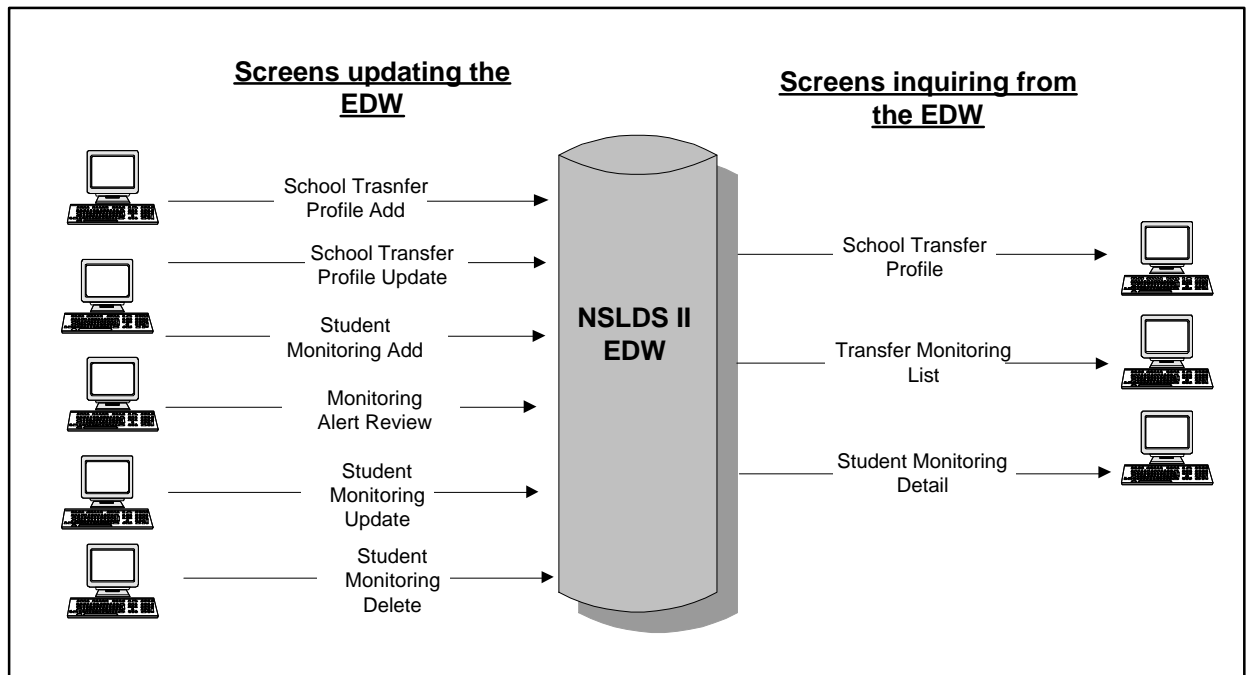

### 2.1 NSLDS II FAP Transfer Student Monitoring

The following diagram depicts the logical flow for the Transfer Student Monitoring screens discussed within this section:

Section	Screen Name	New/ Existing	Description
3.1	School Transfer Profile Add	Existing	Allows a user to add a school transfer profile.
3.2	School Transfer Profile	Existing	Displays information about the school contact for the Transfer Monitoring process
3.3	School Transfer Profile Update	Existing	Allows a user to update the School Transfer Profile information.
3.5	Student Monitoring Add	Existing	Allows a user to add a student to the Transfer Monitoring List.
3.6	Transfer Monitoring List	Existing	Lists all transfer students submitted by the school to be monitored by NSLDS II for reported changes.
3.7	Student Monitoring Detail	Existing	Displays detailed transfer monitoring student information that can be updated or deleted.
3.8	Student Monitoring Update	Existing	Allows a user to update the student's Transfer Monitoring Detail information.
3.9	Student Monitoring Delete	Existing	Allows a user to delete the student from their school's Transfer Monitoring List.
3.10	Monitoring Alert Review	Existing	Lists all transfer students on a school's transfer monitoring list to which changes have been reported.

## 2.2 Update/Inquiry Diagram

The following diagram depicts the Update/Inquiry screen of the FAP website.

**Figure 2, NSLDS II FAP Transfer Student Monitoring**

### 3 Screen Details

#### 3.1 School Transfer Profile Add

<b>Description</b>	<p>Allows a user to add a school transfer profile.</p> <p>The School Transfer Profile Add page is the first page a school must complete before using the Transfer Monitoring process.</p> <p>If a school attempts to add a student to its Transfer Monitoring List via batch before completing this page, NSLDS will send back an error file.</p> <p>If a school attempts to add a student to its Transfer Monitoring List online before establishing a School Transfer Profile, the user will be directed to the School Transfer Profile Add page.</p> <p>If a school tries to access any of the Transfer Monitoring functions from the Tran tab when a School Transfer Profile has not been established, the user will be directed to the School Transfer Profile Add page.</p> <p>This page will only display once. After the information on this page is completed, if the school wishes to make any changes, it must use the School Transfer Profile Update page.</p> <p>A branch can individually create a school transfer profile or as a group.</p>
<b>New or Existing</b>	Existing
<b>User Group (Screen Level)</b>	\$SCHFAT
<b>Requirements Traceability</b>	1.055
<b>Reference(s)</b>	SCHTRPRA.ASP, WB2H_SCHOOL_TRANS_PROFL_ADD_SVR
<b>Business Object</b>	School, Transfer Monitor

##### 3.1.1 Software Unit Logic

<b>NSLDS I File Name:</b>	SCHTRPRA.ASP
<b>NSLDS II File</b>	Schtrpra.jsp

<b>Name:</b>	
<b>Pre-Status:</b>	<p>This screen is accessible from all the screens in the FAP website except the following screens (depending on user access privileges):</p> <ul style="list-style-type: none"> <li>• Change Password</li> <li>• System Requirements</li> <li>• Contact Us</li> <li>• FAQ</li> <li>• Download Help</li> <li>• Security</li> <li>• Privacy Act</li> </ul> <p>*If a school has not created a School Transfer Profile, this will be the default page for the Tran tab.</p>
<b>Post-Status:</b>	<p>This screen allows a user to navigate to any of the following screens (depending on user access privileges):</p> <ul style="list-style-type: none"> <li>• Transfer Monitoring List (Link: Transfer Monitoring List)</li> <li>• Monitoring Alert Review (Link: Monitoring Alert Review)</li> <li>• School Transfer Profile (Link: Submit)</li> <li>• System Log On (Link: Logoff Icon)</li> <li>• Contact Us (Link: Contact Icon)</li> <li>• Menu (Menu Tab)</li> <li>• Loan History (Aid Tab)</li> <li>• Organization Contact List (Org Tab)</li> <li>• Enrollment Summary (Enroll Tab)</li> <li>• Reports (Reports Tab)</li> <li>• External Contact List (Support Tab)</li> </ul>

### 3.1.2 Design Details

The following screenshot highlights the functionality of the School Transfer Profile Add screen.

**NSLDS** Menu Aid Enroll Org Report Tran

Transfer Monitoring List | Monitoring Alert Review | School Transfer Profile

Logged on as: DAWN WILL from Department of Education Region 0

### School Transfer Profile Add

First Name:

Last Name:

Title:

Phone:  Ext:

E-Mail:

Inform: Designated Batch

SAIG Mailbox for School, Servicer or Central Administration Office (Optional):

Is this your Servicer for Transfer Monitoring? Yes ☐ No ☐

Alert: ☐ Web Only

☐ Web and Batch File

SAIG Mailbox for School, Servicer or Central Administration Office:

Is this your Servicer for Transfer Monitoring? Yes ☐ No ☐

Batch Alert Method: ☐ Extract ☐ Report

**Figure 3, School Transfer Profile Add**

### 3.1.3 Screen Functionality

The following section describes each object on the screen and the functionality behind the object.

Transfer Monitoring List	
Element	Link
Definition/Business Rules	Allows a user to navigate to the Transfer Monitoring List screen.
Actions to be performed	When clicked, the Transfer Monitoring List screen appears.
Business Object (Attribute)	None.
Validation	None.

Monitoring Alert Review	
Element	Link
Definition/Business Rules	Allows a user to navigate to the Monitoring Alert Review screen.

<b>Monitoring Alert Review</b>	
Actions to be performed	When clicked, the Monitoring Alert Review screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>School Transfer Profile</b>	
Element	Link
Definition/Business Rules	Allows a user to navigate to the School Transfer Profile screen.
Actions to be performed	When clicked, the School Transfer Profile screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>First Name</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter the first name of the school contact.  <i>Min Characters – 1 (A first name must be entered).</i> <i>Max Characters – 12</i>
Actions to be performed	As the user enters the First Name, it is displayed in the textbox in editable format.  On Enter Submit pushbutton is enacted.
Business Object (Attribute)	School (contactFirstName)
Validation	None.

<b>Last Name</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter the last name of the school contact.  <i>Min Characters – 1 (A last name must be entered).</i> <i>Max Characters – 35</i>
Actions to be performed	As the user enters the First Name, it is displayed in the textbox in editable format.  On Enter Submit pushbutton is enacted.
Business Object (Attribute)	School (contactLastName)

<b>Last Name</b>	
Validation	None.

<b>Title</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter the title of the school contact.  <i>Min Characters – 0</i> <i>Max Characters – 30</i>
Actions to be performed	As the user enters the Title, it is displayed in the textbox in editable format.  On Enter Submit pushbutton is enacted.
Business Object (Attribute)	School (contactTitle)
Validation	None.

<b>Phone</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter the phone number of the school contact.  Upon data entry in the Phone Number field Enable the Phone Extension field  Upon deleting data in the Phone Number field Delete any data in the Phone Extension field Disable Phone Extension field  <i>Min Characters – 10</i> (A phone number must be entered). <i>Max Characters – 12</i> <i>Masks –</i> Phone number must be entered in the “999-999-9999” or “9999999999” format.
Actions to be performed	As the user enters the phone number, it is displayed in the textbox in editable format.  On Enter Submit pushbutton is enacted.
Business Object (Attribute)	School (contactPhone)
Validation	None.

<b>Ext.</b>	
Element	Textbox
Definition/Business Rules	<p>Allows a user to enter the phone number extension of the school contact.</p> <p>Upon entry of School Transfer Profile Add screen Disable Phone Extension</p> <p>Must be in numeric format.</p> <p><i>Min Characters – 0</i> <i>Max Characters – 5</i></p>
Actions to be performed	<p>As the user enters the phone number extension, it is displayed in the textbox in editable format.</p> <p>On Enter Submit pushbutton is enacted.</p>
Business Object (Attribute)	School (contactExtension)
Validation	None.

<b>E-Mail</b>	
Element	Textbox
Definition/Business Rules	<p>Allows a user to enter the email address of the school contact.</p> <p>The email address is used for Alert notifications. It can also be set up as a group email.</p> <p><i>Min Characters – 0</i> <i>Max Characters – 40</i> <i>Masks – E-mail field must have an '@'. There can be only one @ sign in the email field, the email address can not have “..” (i.e., two periods in a row), the email address can not have “.” (i.e., @ sign after a period), the email address can not have “@.” (i.e., @ sign before a period), and the first character in the email address field may not be a period.</i></p>
Actions to be performed	<p>As the user enters the email address, it is displayed in the textbox in editable format.</p> <p>On Enter Submit pushbutton is enacted.</p>

<b>E-Mail</b>	
Business Object (Attribute)	School (contactEmail)
Validation	None.

<b>Inform</b>	
Element	Textbox and Checkbox
Definition/Business Rules	<p>Allows a user to identify whether the school designated a servicer or a Central Administration Office to submit its Inform batch files through SAIG.</p> <p>Anyone with a user ID that can be associated to this school can submit an Inform file via Batch. If the school wants an agency outside the school, a servicer for example, to submit Inform files as well as, or instead of the school, the school must provide a TG# from which those files will be sent.</p> <p>If a TG# is provided, the user must identify if this is the Servicer for Transfer Monitoring. This is accomplished through selecting the Yes or No checkbox located after the question "Is this your Servicer for Transfer Monitoring?"</p> <p>Upon entry of School Transfer Profile Add screen Disable Inform Servicer checkboxes</p> <p>Upon data entry of the SAIG mailbox in the Inform field Enable the Inform Servicer Indicator check boxes</p> <p>Upon delete of the data in the SAIG mailbox in the Inform field Uncheck the Alert Servicer Indicator check boxes Disable the Inform Servicer Indicator check boxes</p>
Actions to be performed	<p>As the user enters the TG#, it is displayed in the textbox in editable format.</p> <p>As the user selects the Yes or No option, a checkmark appears in the selected checkbox.</p>

<b>Inform</b>	
	On Enter Submit pushbutton is enacted.
Business Object (Attribute)	TransferMonitor (informServicerFlag), TransferMonitor (informSAIGMbox)
Validation	None.

<b>Alert</b>	
Element	Checkbox and Textbox
Definition/Business Rules	<p>Allows a user to designate whether they want Alert information via the Web Only or via Web and Batch file.</p> <p>A user must check either the Web Only or Web and Batch File checkbox. If Web and Batch is checked, the school must provide a TG#.</p> <p>Upon selecting the Web Only Alert checkbox            Uncheck Web and Batch Alert checkbox            Delete Alert Destination ID            Disable Alert Destination ID            Uncheck Alert Servicer Indicator check boxes            Disable the Alert Servicer Indicator check boxes            Uncheck Batch Alert Method checkboxes            Disable Batch Alert Method checkboxes</p> <p>Upon selecting the Web and Batch Alert checkbox            Uncheck Web Only Alert checkbox            Enable Alert Destination ID            Enable Batch Alert Method checkboxes</p> <p>Upon deselecting Web and Batch Alert checkbox            Delete Alert Destination ID            Disable Alert Destination ID            Uncheck Alert Servicer Indicator check boxes            Disable the Alert Servicer Indicator check boxes            Uncheck Batch Alert Method checkboxes            Disable Batch Alert Method checkboxes</p> <p>The user must select an alert type.</p>

<b>Alert</b>	
	<p>If the user selects “Web and Batch File” as the alert method, the user must enter an Alert mailbox.</p> <p>If the user enters a TG# for the Alert mailbox, the user must identify if the TG# belongs to the servicer.</p> <p>This field is required.</p>
Actions to be performed	<p>As the user selects the Web Only or Web and Batch File option, a checkmark appears in the selected checkbox.</p> <p>As the user enters the TG#, it is displayed in the textbox in editable format.</p> <p>On Enter Submit pushbutton is enacted.</p>
Business Object (Attribute)	TransferMonitor (alertServicerFlag), TransferMonitor (alertSAIGMbox)
Validation	None.

<b>Batch Alert Method</b>	
Element	Checkbox
Definition/Business Rules	<p>Allows a school that choose to receive Alerts via Web and Batch to designate whether they want an Extract or Report format.</p> <p>The Extract format is strictly a string of data, usually imported into a spreadsheet format, such as Excel. The Report format presents the data in an easily readable report.</p> <p>Upon entry of School Transfer Profile Add screen Disable Batch Alert Method checkboxes</p> <p>A Batch Alert must be selected when the Alert Type is “Web and Batch File”.</p> <p>This field is required if Batch Alert Method is Batch.</p>
Actions to be performed	As the user selects the Extract or Report option, a

<b>Batch Alert Method</b>	
	checkmark appears in the selected checkbox.  On Enter Submit pushbutton is enacted.
Business Object (Attribute)	TransferMonitor (batchAlertMethod)
Validation	None.

<b>Submit</b>	
Element	Pushbutton
Definition/Business Rules	<p>Allows a user to submit the School Transfer Profile.</p> <p>The minimum information required for a School Transfer Profile includes:</p> <ul style="list-style-type: none"> <li>• First and Last Names</li> <li>• Phone number</li> <li>• Alert Method</li> <li>• Batch Alert Method (if Alert Method selected is Batch)</li> <li>• E- mail address</li> </ul> <p>Note: This page is not to be used to add students to the school's transfer monitoring list. This is only for school information.</p>
Actions to be performed	By clicking on the pushbutton, validation is performed. If there are no errors the user is directed to the School Transfer Profile screen with a message that the Add has been performed successfully. If there are errors, the appropriate error message is displayed.
Business Object (Attribute)	None.
Validation	<p>An error message appears at the top of the screen for the following conditions:</p> <ul style="list-style-type: none"> <li>• <i>Condition:</i> The first name field is blank. <i>Message:</i> Please enter a First Name. <i>Location:</i> Client <i>Additional Information:</i> The label font color for the First Name field becomes red. Display error.gif.</li> </ul>

<b>Submit</b>	
	<ul style="list-style-type: none"> <li> <p><i>Condition:</i> The last name field is blank.  <i>Message:</i> Please enter a Last Name.  <i>Location:</i> Client  <i>Additional Information:</i> The label font color for the Last Name field becomes red. Display error.gif.</p> </li> <li> <p><i>Condition:</i> Phone number can only be entered in the 999xxxxxxx or 999-xxx-xxxx formats.  <i>Message:</i> Invalid phone number. Please enter in 999-xxx-xxxx format.  <i>Location:</i> Client  <i>Additional Information:</i> The label font color for the Phone Number field becomes red. Display error.gif.</p> </li> <li> <p><i>Condition:</i> The phone number entered was less than 10 characters  <i>Message:</i> Invalid phone number. Please enter in 999-xxx-xxxx format.  <i>Location:</i> Client  <i>Additional Information:</i> The label font color for the Phone Number field becomes red. ### 3.2.3 Screen Functionality

The following section describes each object on the screen and the functionality behind the object.

Transfer Monitoring List	
Element	Link
Definition/Business Rules	Allows a user to navigate to the Transfer Monitoring List screen.
Actions to be performed	When clicked, the Transfer Monitoring List screen appears.
Business Object (Attribute)	None.

<b>Transfer Monitoring List</b>	
Validation	None.

<b>Monitoring Alert Review</b>	
Element	Link
Definition/Business Rules	Allows a user to navigate to the Monitoring Alert Review screen.
Actions to be performed	When clicked, the Monitoring Alert Review screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>School Transfer Profile</b>	
Element	Link (Deactivated)
Definition/Business Rules	Allows a user to navigate to the School Transfer Profile screen.
Actions to be performed	When clicked, the School Transfer Profile screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>Update</b>	
Element	Pushbutton
Definition/Business Rules	Allows a user to navigate to the School Transfer Profile Update screen.
Actions to be performed	By clicking on the pushbutton, the School Transfer Profile Update screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>First Name</b>	
Element	Label
Definition/Business Rules	Displays the first name of the school contact.
Actions to be performed	None.
Business Object (Attribute)	School (contactFirstName)
Validation	None.

<b>Last Name</b>	
Element	Label
Definition/Business Rules	Displays the last name of the school contact.
Actions to be performed	None.
Business Object (Attribute)	School (contactFirstName)

Last Name	
Validation	None.

Title	
Element	Label
Definition/Business Rules	Displays the title of the school contact.
Actions to be performed	None.
Business Object (Attribute)	School (contactTitle)
Validation	None.

Phone	
Element	Label
Definition/Business Rules	Displays the phone number of the school contact.  <i>Mask</i> - Phone number must be displayed in “999-999-9999” format
Actions to be performed	None.
Business Object (Attribute)	School (contactPhone)
Validation	None.

Ext.	
Element	Label
Definition/Business Rules	Displays the phone number extension of the school contact.
Actions to be performed	None.
Business Object (Attribute)	School (contactExtension), Servicer (contactExtension)
Validation	None.

E-Mail	
Element	Label
Definition/Business Rules	Displays the email address of the school contact.  The email address is used for Alert notifications. It can also be set up as a group email.  There can be only one @ sign in the email field, the email address can not have “..” (i.e., two periods in a row), the email address can not have “.@” (i.e., @ sign after a period), the email address can not have “@.” (i.e., @ sign before a period), and the first character in the email address field

<b>E-Mail</b>	
	may not be a period.
Actions to be performed	None.
Business Object (Attribute)	School (contactEmail)
Validation	None.

<b>Inform</b>	
Element	Label
Definition/Business Rules	Displays the school's or servicer's TG# that will provide the Inform file.
Actions to be performed	None.
Business Object (Attribute)	TransferMonitor (informSAIGMbox)
Validation	None.

<b>Transform Monitoring Servicer</b>	
Element	Label
Definition/Business Rules	Identifies whether the Inform SAIG Mailbox belongs to the school's servicer.  Displays a "Yes" value, if the school has indicated the Inform SAIG Mailbox belongs to the school's servicer.  Displays a "No" value, if the school has indicated the Inform SAIG Mailbox does not belong to the school's servicer.  Displays a blank value, if the school has not indicated the Inform SAIG Mailbox belongs to the school's servicer.
Actions to be performed	None.
Business Object (Attribute)	TransferMonitor (informServicerFlag)
Validation	None.

<b>Alert</b>	
Element	Label
Definition/Business Rules	Displays the alert method.
Actions to be performed	None.
Business Object (Attribute)	TransferMonitor (aletmethod)
Validation	None.

<b>Transform Monitoring Servicer</b>	
Element	Label
Definition/Business Rules	<p>Identifies whether the Alert SAIG Mailbox belongs to the school's servicer.</p> <p>Displays a "Yes" value, if the school has indicated the Alert SAIG Mailbox belongs to the school's servicer.</p> <p>Displays a "No" value, if the school has indicated the Alert SAIG Mailbox does not belong to the school's servicer.</p> <p>Displays a blank value, if the school has not indicated the Alert SAIG Mailbox belongs to the school's servicer.</p>
Actions to be performed	None.
Business Object (Attribute)	TransferMonitor (alertServicerFlag)
Validation	None.

<b>SAIG Mailbox</b>	
Element	Label
Definition/Business Rules	If the school designated Web and Batch Alerts as the output option, this box shows the TG# to which those Batch Alerts will be sent, as provided by the school. If the school requested Web Only Alerts, this box is blank.
Actions to be performed	None.
Business Object (Attribute)	TransferMonitor (alertSAIGMbox)
Validation	None.

<b>Batch Alert Method</b>	
Element	Label
Definition/Business Rules	Displays the selected Batch Alert Method.
Actions to be performed	None.
Business Object (Attribute)	TransferMonitor (batchAlertMethod)
Validation	None.

<b>Last Update By</b>	
Element	Label
Definition/Business Rules	Displays the name of the person to make the last update to the school's Transfer Profile and the date of the last update.

Last Update By	
Actions to be performed	None.
Business Object (Attribute)	TransferMonitor (lastChangedByName, lastChangedByDate)
Validation	None.

### 3.3.3 Screen Functionality

The following section describes each object on the screen and the functionality behind the object.

Transfer Monitoring List	
Element	Link
Definition/Business Rules	Allows a user to navigate to the Transfer

<b>Transfer Monitoring List</b>	
	Monitoring List screen.
Actions to be performed	When clicked, the Transfer Monitoring List screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>Monitoring Alert Review</b>	
Element	Link
Definition/Business Rules	Allows a user to navigate to the Monitoring Alert Review screen.
Actions to be performed	When clicked, the Monitoring Alert Review screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>School Transfer Profile</b>	
Element	Link
Definition/Business Rules	Allows a user to navigate to the School Transfer Profile screen.
Actions to be performed	When clicked, the School Transfer Profile screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>First Name</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter the first name of the school contact.  <i>Min Characters – 1 (A first name must be entered). Max Characters – 12</i>
Actions to be performed	As the user enters the First Name, it is displayed in the textbox in editable format.  On Enter Submit pushbutton is enacted
Business Object (Attribute)	School (contactFirstName)
Validation	None.

<b>Last Name</b>	
Element	Textbox

<b>Last Name</b>	
Definition/Business Rules	Allows a user to enter the last name of the school contact.  <i>Min Characters – 1 (A last name must be entered).</i> <i>Max Characters – 35</i>
Actions to be performed	As the user enters the First Name, it is displayed in the textbox in editable format.  On Enter Submit pushbutton is enacted.
Business Object (Attribute)	School (contactLastName)
Validation	None.

<b>Title</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter the title of the school contact.  <i>Min Characters – 0</i> <i>Max Characters – 30</i>
Actions to be performed	As the user enters the Title, it is displayed in the textbox in editable format.  On Enter Submit pushbutton is enacted.
Business Object (Attribute)	School (contactTitle)
Validation	None.

<b>Phone</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter the phone number of the school contact.  Upon data entry in the Phone Number field Enable the Phone Extension field  Upon deleting data in the Phone Number field Delete any data in the Phone Extension field Disable Phone Extension field  <i>Min Characters – 10 (A phone number must be entered).</i>

<b>Phone</b>	
	<i>Max Characters – 12</i> <i>Masks – Phone number must be entered in the “999-999-9999” or “9999999999” format.</i>
Actions to be performed	As the user enters the phone number, it is displayed in the textbox in editable format.  On Enter Submit pushbutton is enacted.
Business Object (Attribute)	School (contactPhone)
Validation	None.

<b>Ext.</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter the phone number extension of the school contact.  Upon entry of School Transfer Profile Add screen Disable Phone Extension  Must be in numeric format.  <i>Min Characters – 0</i> <i>Max Characters – 5</i>
Actions to be performed	As the user enters the phone number extension, it is displayed in the textbox in editable format.  On Enter Submit pushbutton is enacted.
Business Object (Attribute)	School (contactExtension)
Validation	None.

<b>E-Mail</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter the email address of the school contact.  The email address is used for Alert notifications. It can also be set up as a group email.  <i>Min Characters – 0</i> <i>Max Characters – 40</i> <i>Masks – E-mail field must have an ‘@’. There can</i>

<b>E-Mail</b>	
	be only one @ sign in the email field, the email address can not have “..” (i.e., two periods in a row), the email address can not have “.” (i.e., @ sign after a period), the email address can not have “@.” (i.e., @ sign before a period), and the first character in the email address field may not be a period.
Actions to be performed	As the user enters the email address, it is displayed in the textbox in editable format.  On Enter Submit pushbutton is enacted.
Business Object (Attribute)	School (contactEmail)
Validation	None.

<b>Inform</b>	
Element	Textbox and Checkbox
Definition/Business Rules	<p>Allows a user to identify whether the school designated a servicer to submit its Inform batch files through SAIG.</p> <p>Anyone with a user ID that can be associated to this school can submit an Inform file via Batch. If the school wants an agency outside the school, a servicer for example, to submit Inform files as well as, or instead of the school, the school must provide a TG# from which those files will be sent.</p> <p>If a TG# is provided, the user must identify if this is the Servicer for Transfer Monitoring. This is accomplished through selecting the Yes or No checkbox located after the question “Is this your Servicer for Transfer Monitoring?”</p> <p>Upon entry of School Transfer Profile Add screen Disable Inform Servicer checkboxes</p> <p>Upon data entry of the SAIG mailbox in the Inform field Enable the Inform Servicer Indicator check boxes</p> <p>Upon delete of the data in the SAIG mailbox in</p>

<b>Inform</b>	
	<p>the Inform field</p> <p>Uncheck the Alert Servicer Indicator check boxes</p> <p>Disable the Inform Servicer Indicator check boxes</p>
Actions to be performed	<p>As the user enters the TG#, it is displayed in the textbox in editable format.</p> <p>As the user selects the Yes or No option, a checkmark appears in the selected checkbox.</p> <p>On Enter</p> <p>Submit pushbutton is enacted.</p>
Business Object (Attribute)	TransferMonitor (informServicerFlag), TransferMonitor (informSAIGMbox)
Validation	None.

<b>Alert</b>	
Element	Checkbox and Textbox
Definition/Business Rules	<p>Allows a user to designate whether they want Alert information via the Web Only or via Web and Batch file.</p> <p>A user must check either the Web Only or Web and Batch File checkbox. If Web and Batch is checked, the school must provide a TG#.</p> <p>Upon selecting the Web Only Alert checkbox</p> <p>Uncheck Web and Batch Alert checkbox</p> <p>Delete Alert Destination ID</p> <p>Disable Alert Destination ID</p> <p>Uncheck Alert Servicer Indicator check boxes</p> <p>Disable the Alert Servicer Indicator check boxes</p> <p>Uncheck Batch Alert Method checkboxes</p> <p>Disable Batch Alert Method checkboxes</p> <p>Upon selecting the Web and Batch Alert checkbox</p> <p>Uncheck Web Only Alert checkbox</p> <p>Enable Alert Destination ID</p> <p>Enable Batch Alert Method checkboxes</p>

<b>Alert</b>	
	<p>Upon deselecting Web and Batch Alert checkbox</p> <p>Delete Alert Destination ID</p> <p>Disable Alert Destination ID</p> <p>Uncheck Alert Servicer Indicator check boxes</p> <p>Disable the Alert Servicer Indicator check boxes</p> <p>Uncheck Batch Alert Method checkboxes</p> <p>Disable Batch Alert Method checkboxes</p> <p>This field is required.</p>
Actions to be performed	<p>As the user selects the Web Only or Web and Batch File option, a checkmark appears in the selected checkbox.</p> <p>As the user enters the TG#, it is displayed in the textbox in editable format.</p> <p>On Enter</p> <p>Submit pushbutton is enacted.</p>
Business Object (Attribute)	TransferMonitor (alertServicerFlag), TransferMonitor (alertSAIGMbox)
Validation	None.

<b>Batch Alert Method</b>	
Element	Checkbox
Definition/Business Rules	<p>Allows a school that choose to receive Alerts via Web and Batch to designate whether they want an Extract or Report format.</p> <p>The Extract format is strictly a string of data, usually imported into a spreadsheet format, such as Excel. The Report format presents the data in an easily readable report.</p> <p>Upon entry of School Transfer Profile Add screen</p> <p>Disable Batch Alert Method checkboxes</p> <p>This field is required if Batch Alert Method is Batch.</p>
Actions to be performed	As the user selects the Extract or Report option, a checkmark appears in the selected checkbox.

<b>Batch Alert Method</b>	
	On Enter Submit pushbutton is enacted.
Business Object (Attribute)	TransferMonitor (batchAlertMethod)
Validation	None.

<b>Submit</b>	
Element	Pushbutton
Definition/Business Rules	<p>Allows a user to submit the School Transfer Profile.</p> <p>The minimum information required for a School Transfer Profile includes:</p> <ul style="list-style-type: none"> <li>• First and Last Names</li> <li>• Phone number</li> <li>• Alert Method</li> <li>• Batch Alert Method (if Alert Method selected is Batch)</li> <li>• E- mail address</li> </ul>
Actions to be performed	By clicking on the pushbutton, validation is performed. If there are no errors the user is directed to the School Transfer Profile screen with a message that the Add has been performed successfully. If there are errors, the appropriate error message is displayed.
Business Object (Attribute)	None.
Validation	<p>An error message appears at the top of the screen for the following conditions:</p> <ul style="list-style-type: none"> <li>• <i>Condition:</i> The first name field is blank. <i>Message:</i> Please enter a First Name. <i>Location:</i> Client <i>Additional Information:</i> The label font color for the First Name field becomes red. ### 3.4.2 Design Details

The following screenshot highlights the functionality of the Student Monitoring Add screen.

The screenshot shows the NSLDS II web interface. At the top left is the NSLDS logo. To its right is a navigation bar with buttons: Menu, Aid, Enroll, Org, Report, and Tran. Further right are icons for a phone, help (?), and exit (X). Below the navigation bar is a header section with links: Transfer Monitoring List, Monitoring Alert Review, and School Transfer Profile. Under these links are input fields for SSN, First Name, and DOB (with a date format hint (MMDDCCYY)), followed by a Retrieve button. Below this is a status bar indicating the user is logged on as JUSTIN MILLER from SANTA CLARA UNIVERSITY. The main content area has a message box stating 'No student currently selected.' Below this is the 'Student Monitoring Add' section, which contains a form with fields for SSN, First Name, Last Name, Date of Birth (with date format hint), Enrollment Begin Date (with date format hint), and Monitor Begin Date (with the value 11/18/2002 and date format hint). A Submit button is located below the form. On the left side of the main content area, there is a link 'Return To Transfer Monitoring List' with a blue arrow icon. At the bottom of the page is a footer bar with a home icon and the text 'PRIVACY ACT OF 1974 (AS AMENDED)'.

### 3.4.3 Screen Functionality

The following section describes each object on the screen and the functionality behind the object.

Transfer Monitoring List	
Element	Link
Definition/Business Rules	Allows a user to navigate to the Transfer Monitoring List screen.
Actions to be performed	When clicked, the Transfer Monitoring List screen appears.
Business Object (Attribute)	None.
Validation	None.

Monitoring Alert Review	
Element	Link

<b>Monitoring Alert Review</b>	
Definition/Business Rules	Allows a user to navigate to the Monitoring Alert Review screen.
Actions to be performed	When clicked, the Monitoring Alert Review screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>School Transfer Profile</b>	
Element	Link
Definition/Business Rules	Allows a user to navigate to the School Transfer Profile screen.
Actions to be performed	When clicked, the School Transfer Profile screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>SSN</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter a Social Security Number.  <i>Min Characters – 0</i> <i>Max Characters – 11</i> <i>Masks - SSN must be entered in a “123456789” or “123-45-6789” format.</i>
Actions to be performed	As the user enters their SSN, it is displayed in the textbox in editable format.  On Enter Retrieve pushbutton is enacted.
Business Object (Attribute)	Student (SSN)
Validation	None.

<b>First Name</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter a First Name.  <i>Min Characters – 0</i> <i>Max Characters – 12</i>
Actions to be performed	As the user enters their First Name, it is displayed in the textbox in editable format.

<b>First Name</b>	
	On Enter Retrieve pushbutton is enacted.
Business Object (Attribute)	Student (firstName)
Validation	None.

<b>Date Of Birth</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter a Date of Birth.  <i>Min Characters – 0</i> <i>Max Characters – 10</i> <i>Masks - DOB must be entered with a MMDDCCYY, MM/DD/CCYY, or MM-DD-CCYY format.</i>
Actions to be performed	As the user enters their Date of Birth, it is displayed in the textbox in editable format.  On Enter Retrieve pushbutton is enacted.
Business Object (Attribute)	Student (DOB)
Validation	None.

<b>Retrieve</b>	
Element	Pushbutton
Definition/Business Rules	Allows a user to retrieve loan information on a specific student based on the search criteria entered in the SSN, First Name, and DOB fields.
Actions to be performed	Users clicks on the pushbutton after they enter their SSN or SSN, First Name, and DOB. Validation is performed. If there are no errors, and a matching student is found, the student's information is populated in the Student Monitoring Add section. If there are errors, the appropriate error message is displayed.  When a search for a student is performed and no student/borrower is found matching the criteria, a "Add Student Monitor " button will display at the bottom of the Borrower Selection page. Clicking this will indicate to the program to use the search criteria for the Monitored Student.

<b>Retrieve</b>	
	<p>When a search for a student results in the identification of multiple students/borrowers, a “Reject Selection “ button will display at the bottom of the Borrower Selection page. Clicking this will indicate to the program to use the search criteria for the Monitored Student. If the user selects a student from the list in the Borrower Selection screen, the SSN, First Name, Last Name, and DOB fields are automatically populated in the Student Monitoring Add screen. The Monitor Begin Date field is automatically populated with the current date.</p>
Business Object (Attribute)	None.
Validation	<ul style="list-style-type: none"> <li> <p><i>Condition:</i> Upon successful validation, the SSN, First Name, Last Name, and Date of Birth are populated in the Student Monitoring Add screen based on the data found in the database. The Monitor Begin Date is populated with the current date.</p>
Business Object (Attribute)	None.
Validation	None

<b>Return to Transfer Monitoring List</b>	
Element	Link
Definition/Business Rules	Allows a user to navigate to the Transfer Monitoring List screen.

<b>Return to Transfer Monitoring List</b>	
Actions to be performed	When clicked, the Transfer Monitoring List screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>No student currently selected.</b>	
Element	Label
Definition/Business Rules	<p>Displays the name, SSN, and DOB of a borrower whose loan detail is displayed.</p> <p>If a student is not selected, the following message should be displayed:</p> <p style="text-align: center;">No student currently selected.</p> <p><i>Masks</i> – The SSN is displayed in the “123-45-6789” format. The DOB is displayed in the MM/DD/CCYY format.</p>
Actions to be performed	None.
Business Object (Attribute)	Student (firstName, middleInitial, lastName, SSN, DOB)
Validation	None.

<b>SSN:</b>	
Element	Textbox
Definition/Business Rules	<p>Allows a user to enter the student’s Social Security Number. It automatically displays when the Student Monitoring Add page is accessed from the Loan History, Pell Grant History, or Transfer Monitoring List pages, assuming a student has been selected.</p> <p><i>Min Characters</i> – 9 (this field is required) <i>Max Characters</i> – 11 <i>Masks</i> - SSN must be entered in a “123456789” or “123-45-6789” format.</p>
Actions to be performed	<p>As the user enters the SSN, it is displayed in the textbox in editable format.</p> <p>On Enter</p>

<b>SSN:</b>	
	Submit pushbutton is enacted.
Business Object (Attribute)	Student (SSN)
Validation	None.

<b>First Name:</b>	
Element	Textbox
Definition/Business Rules	<p>Allows a user to enter a student's first name. It automatically displays when the Student Monitoring Add page is accessed from the Loan History, Pell Grant History, or Transfer Monitoring List pages, assuming a student has been selected.</p> <p><i>Min Characters – 1 (this field is required)</i> <i>Max Characters - 12</i></p>
Actions to be performed	<p>As the user enters the First Name, it is displayed in the textbox in editable format.</p> <p>On Enter Submit pushbutton is enacted.</p>
Business Object (Attribute)	Student (firstName)
Validation	None.

<b>Last Name:</b>	
Element	Textbox
Definition/Business Rules	<p>Allows a user to enter a student's last name. It automatically displays when the Student Monitoring Add page is accessed from the Loan History, Pell Grant History, or Transfer Monitoring List pages, assuming a student has been selected.</p> <p><i>Min Characters – 1 (this field is required)</i> <i>Max Characters - 35</i></p>
Actions to be performed	<p>As the user enters the Last Name, it is displayed in the textbox in editable format.</p> <p>On Enter Submit pushbutton is enacted.</p>
Business Object (Attribute)	Student (lastName)
Validation	None.

<b>Date of Birth:</b>	
Element	Textbox
Definition/Business Rules	<p>Allows a user to enter a student's date of birth. It automatically displays when the Student Monitoring Add page is accessed from the Loan History, Pell Grant History, or Transfer Monitoring List pages, assuming a student has been selected.</p> <p><i>Min Characters</i> – 8 (this field is required)  <i>Max Characters</i> – 10  <i>Masks</i> - DOB must be entered with a "MMDDCCYY", "MM/DD/CCYY" or "MM-DD-CCYY" format.</p>
Actions to be performed	<p>As the user enters the Date of Birth, it is displayed in the textbox in editable format.</p> <p>On Enter Submit pushbutton is enacted.</p>
Business Object (Attribute)	Student (DOB)
Validation	None.

<b>Enrollment Begin Date:</b>	
Element	Textbox
Definition/Business Rules	<p>Allows a user to enter the student's enrollment begin date.</p> <p><i>Min Characters</i> – 8 (this field is required)  <i>Max Characters</i> – 10  <i>Masks</i> – Enrollment Begin Date must be entered with a "MMDDCCYY", "MM/DD/CCYY" or "MM-DD-CCYY" format.</p>
Actions to be performed	<p>As the user enters the Enrollment Begin Date, it is displayed in the textbox in editable format.</p> <p>On Enter Submit pushbutton is enacted.</p>
Business Object (Attribute)	Student (studentEnrollmentDetailAL)
Validation	None.

<b>Monitor Begin Date:</b>	
Element	Textbox

<b>Monitor Begin Date:</b>	
Definition/Business Rules	<p>Displays the current date when the user accesses this page.</p> <p>This field is automatically populated with the current date. It is an updateable field.</p> <p>If the date is changed to a future date, it cannot be after the Enrollment Begin date entered above.</p> <p><i>Min Characters</i> – 8 (this field is required)  <i>Max Characters</i> – 10  <i>Masks</i> – Monitor Begin Date must be entered with a “MMDDCCYY”, “MM/DD/CCYY” or “MM-DD-CCYY” format.</p>
Actions to be performed	<p>As the user enters the Monitor Begin Date, it is displayed in the textbox in editable format.</p> <p>On Enter  Submit pushbutton is enacted.</p>
Business Object (Attribute)	TransferMonitor (monitorBeginDt)
Validation	None.

<b>Submit</b>	
Element	Pushbutton
Definition/Business Rules	<p>Allows a user to add a student to the Transfer Monitoring List based on the data entered in the SSN, First Name, Last Name, Date of Birth, Enrollment Begin Date, and Monitor Begin Date fields. The user is directed to the Transfer Monitor List screen if the student was successfully added.</p>
Actions to be performed	<p>By clicking on the pushbutton, validation is performed. If there are no errors, the user can submit their request to add a student to the Transfer Monitoring List. Successful submission of a new Monitoring Student will return the user to the Transfer Monitoring List page with a successfully added message. The Transfer Monitoring List page will reset with blank spaces in all of the fields except for Enrollment Begin Date and Monitor Begin Date. The date fields will contain the last entered values. If there are errors, the appropriate error message is displayed.</p>

<b>Submit</b>	
Business Object (Attribute)	None.

### 3.5 Transfer Monitoring List

<b>Description</b>	<p>Lists all transfer students submitted by the school to be monitored by NSLDS II for reported changes.</p> <p>Lists all students that were submitted by the school via the online Student Monitoring Add page or via the Transfer Monitoring Inform batch file. The Transfer Monitoring List page only shows the students submitted by the school associated with the user ID of the person viewing the list.</p> <p>The transfer monitoring list displays a maximum of 125 monitored students on one page. If the list contains more than 125 students, a page down button will allow the user to view subsequent pages. A page up button will be available once a user has paged down.</p>

### 3.5.3 Screen Functionality

The following section describes each object on the screen and the functionality behind the object.

<b>Transfer Monitoring List</b>	
Element	Link (Deactivated)
Definition/Business Rules	Allows a user to navigate to the Transfer Monitoring List screen.
Actions to be performed	When clicked, the Transfer Monitoring List screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>Monitoring Alert Review</b>	
Element	Link
Definition/Business Rules	Allows a user to navigate to the Monitoring Alert Review screen.
Actions to be performed	When clicked, the Monitoring Alert Review screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>School Transfer Profile</b>	
Element	Link
Definition/Business Rules	Allows a user to navigate to the School Transfer Profile screen.
Actions to be performed	When clicked, the School Transfer Profile screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>Add Student to Monitoring List Button</b>	
Element	Pushbutton
Definition/Business Rules	Allows a user to navigate to the Student Monitoring Add screen.
Actions to be performed	By clicking on the pushbutton, the Student Monitoring Add screen will appear.
Business Object (Attribute)	None.
Business Object (Attribute)	None.
Validation	None.

<b>Sort By</b>	
Element	Dropdown Box
Definition/Business Rules	Allows a user to select a Sort By criteria. The following options should be listed:

<b>Sort By</b>	
	-Select- Name SSN Enrollment Begin Date Monitor Begin Date Last Changed By  The default sort order is alphabetical by Student Last Name.
Actions to be performed	When the user clicks on the Sort By Dropdown Box, all the options appear. The "Select" option is highlighted.  On Enter Retrieve pushbutton is enacted.
Business Object (Attribute)	None.
Validation	None.

<b>SSN</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter a student's SSN for filtering purposes.  <i>Min Characters</i> – 0 <i>Max Characters</i> – 11 <i>Masks</i> - SSN must be entered in a "123456789" or "123-45-6789" format.
Actions to be performed	As the user enters the SSN, it is displayed in the textbox in editable format.  On Enter Retrieve pushbutton is enacted.
Business Object (Attribute)	Student (SSN)
Validation	None.

<b>Last Name</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter a student's Last Name for filtering purposes.  <i>Min Characters</i> – 0 <i>Max Characters</i> - 35

<b>Last Name</b>	
Actions to be performed	As the user enters the Last Name, it is displayed in the textbox in editable format.  On Enter Retrieve pushbutton is enacted.
Business Object (Attribute)	Student (lastName)
Validation	None.

<b>Enrollment Begin Date</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter a student's Enrollment Begin Date for filtering purposes.  On Enter Retrieve pushbutton is enacted.  <i>Min Characters – 0</i> <i>Max Characters – 10</i> <i>Masks – Enrollment Begin Date must be entered with a “MMDDCCYY”, “MM/DD/CCYY” or “MM-DD-CCYY” format.</i>
Actions to be performed	As the user enters the Enrollment Begin Date, it is displayed in the textbox in editable format.  On Enter Retrieve pushbutton is enacted.
Business Object (Attribute)	Student (enrollmentDetailAL)
Validation	None.

<b>Monitor Begin Date</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter a student's Monitor Begin Date for filtering purposes.  <i>Min Characters – 0</i> <i>Max Characters – 10</i> <i>Masks – Monitor Begin Date must be entered with a “MMDDCCYY”, “MM/DD/CCYY” or “MM-DD-CCYY” format.</i>
Actions to be performed	As the user enters the Monitor Begin Date, it is displayed in the textbox in editable format

Monitor Begin Date	
	On Enter Retrieve pushbutton is enacted.
Business Object (Attribute)	TransferMonitor (monitorBeginDt)
Validation	None.

Last Changed By	
Element	Textbox
Definition/Business Rules	Allows a user to enter the name of the user that Last Changed a record for filtering purposes.  <i>Min Characters – 0</i> <i>Max Characters - 48</i>
Actions to be performed	As the user enters the name in the Last Changed By field, it is displayed in the textbox in editable format.  On Enter Retrieve pushbutton is enacted.
Business Object (Attribute)	TransferMonitor (lastChangedByName)
Validation	None.

Retrieve	
Element	Pushbutton
Definition/Business Rules	Allows a user to retrieve records based on the criteria selected.
Actions to be performed	By clicking on the pushbutton, validation is performed. If there are no errors and students matching the criteria are identified, a list is displayed with the student information in the Transfer Student Monitoring screen. The list displays up to 120 students per page. If there are errors, the appropriate error message is displayed.  The displayed list will include the following fields: SSN, Name, DOB, Enrollment Begin Date, Monitor Begin Date, Last Changed By.
Business Object (Attribute)	None.
Validation	<ul style="list-style-type: none"> <li><i>Condition:</i> Upon successful validation, the SSN, Name, DOB, Enrollment Begin Date, Monitor Begin Date, and Last Change By data is displayed in the Transfer Student</li> </ul>

<b>Retrieve</b>	
	<p>Monitoring screen.  <i>Message:</i> None.  <i>Location:</i> Server  <i>Additional Information:</i> None.</p> <p>An error message appears at the top of the screen for the following conditions:</p> <ul style="list-style-type: none"> <li> <p><i>Condition:</i> The Enrollment Begin Date field is not entered in the MMDDCCYY, MM/DD/CCYY, or MM-DD-CCYY format.  <i>Message:</i> Please enter an Enrollment Begin Date in the MMDDCCYY format.  <i>Location:</i> Client  <i>Additional Information:</i> The label font color for the Enrollment Begin Date field becomes red. Display error.gif.</p> </li> <li> <p><i>Condition:</i> The Monitor Begin Date field is not entered in the MMDDCCYY, MM/DD/CCYY, or MM-DD-CCYY format.  <i>Message:</i> Please enter a Monitor Begin Date in the MMDDCCYY format.  <i>Location:</i> Client  <i>Additional Information:</i> The label font color for the Monitor Begin Date field becomes red. Display error.gif.</p> </li> <li> <p><i>Condition:</i> A user enters characters in the SSN field.  <i>Message:</i> Please enter a 9 digit numeric SSN.  <i>Location:</i> Client  <i>Additional Information:</i> The label font color for the SSN field becomes red. Display error.gif.</p> </li> <li> <p><i>Condition:</i> A user enters a SSN less than 9 characters in the SSN field.  <i>Message:</i> Please enter a 9 digit numeric SSN.  <i>Location:</i> Client  <i>Additional Information:</i> The label font color for the SSN field becomes red. Display error.gif.</p> </li> </ul>
<b><u>1</u> (example)</b>	

<b>1 (example)</b>	
Element	Link
Definition/Business Rules	Allows a user to navigate to the Transfer Monitoring Detail screen for the selected student. This number increases sequentially based on the number of records that appear.
Actions to be performed	When clicked, the Transfer Monitoring Detail screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>SSN</b>	
Element	Label
Definition/Business Rules	Displays the student's SSN.  If the student has had an Alert sent from the NSLDS, there will be an Alert icon displayed next to the SSN.  <i>Masks</i> – SSN is displayed in the “123-45-6789” format.
Actions to be performed	None.
Business Object (Attribute)	Student (SSN)
Validation	None.

<b>Name</b>	
Element	Label
Definition/Business Rules	Displays the student's first and last name.
Actions to be performed	None.
Business Object (Attribute)	Student (lastName, firstName)
Validation	None.

<b>DOB</b>	
Element	Label
Definition/Business Rules	Displays the student's DOB.  <i>Masks</i> – DOB is displayed in the MM/DD/CCYY format.
Actions to be performed	None.
Business Object (Attribute)	Student (DOB)
Validation	None.

<b>Enrollment Begin Date</b>	
Element	Label
Definition/Business Rules	Displays the student's Enrollment Begin Date (the date when the student was reported to begin classes at the school).  <i>Masks</i> – Enrollment Begin Date is displayed in the MM/DD/CCYY format.
Actions to be performed	None.
Business Object (Attribute)	Student (enrollmentDetailAL)
Validation	None.

<b>Monitor Begin Date</b>	
Element	Label
Definition/Business Rules	Displays the student's Monitor Begin Date (the date when the NSLDS begin or will begin monitoring the student).  <i>Masks</i> – Monitor Begin Date is displayed in the MM/DD/CCYY format.
Actions to be performed	None.
Business Object (Attribute)	TransferMonitor (monitorBeginDt)
Validation	None.

<b>Last Changed By</b>	
Element	Label
Definition/Business Rules	Displays the name of the person who made the last update to this student's monitoring record, and the date that change was made. If there have been no updates since the student was added to the list, the name of the user who added the student displays here, as well as the date the student was added. If the student was added or last updated via batch process, Batch displays here.  <i>Masks</i> – The date is displayed in the MM/DD/CCYY format.
Actions to be performed	None.
Business Object (Attribute)	TransferMonitor (lastChangedByName, lastChangedbyDate)
Validation	None.

### 3.7.3 Screen Functionality

The following section describes each object on the screen and the functionality behind the object.

<b>Transfer Monitoring List</b>	
Element	Link
Definition/Business Rules	Allows a user to navigate to the Transfer Monitoring List screen.
Actions to be performed	When clicked, the Transfer Monitoring List screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>Monitoring Alert Review</b>	
Element	Link
Definition/Business Rules	Allows a user to navigate to the Monitoring Alert Review screen.
Actions to be performed	When clicked, the Monitoring Alert Review screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>School Transfer Profile</b>	
Element	Link
Definition/Business Rules	Allows a user to navigate to the School Transfer Profile screen.
Actions to be performed	When clicked, the School Transfer Profile screen appears.
Business Object (Attribute)	None.
Validation	None.

<b>Return to Transfer Monitoring List</b>	
Element	Link
Definition/Business Rules	Allows a user to navigate to the Student Monitoring Detail screen.
Actions to be performed	When clicked, the Student Monitoring Detail appears.
Business Object (Attribute)	None
Validation	None.

<b>SSN</b>	
Element	Label
Definition/Business Rules	Displays the student's SSN. This field should not be editable.  <i>Masks</i> – The SSN is displayed in the “123-45-6789” format.
Actions to be performed	None.
Business Object (Attribute)	Student (SSN)
Validation	None.

<b>First Name:</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter a student's first name.  The First Name textbox should be automatically populated based on the student's first name that is displayed on the Student Monitoring Detail screen.  Users may change the First Name, Last Name, Date of Birth, Enrollment Begin Date, and the Monitor Begin Date if no monitoring events are associated to them. Otherwise, if the student has monitoring events associated, the user may change the Enrollment Begin Date and/or the Monitor Begin Date.  <i>Min Characters</i> – 1 (this field is required) <i>Max Characters</i> – 12
Actions to be performed	As the user enters the First Name, it is displayed in the textbox in editable format.
Business Object (Attribute)	Student (firstName)
Validation	None.

<b>Last Name:</b>	
Element	Textbox
Definition/Business Rules	Allows a user to enter a student's last name.  The Last Name textbox should be automatically populated based on the student's last name that is displayed on the Student Monitoring Detail screen.

<b>Last Name:</b>	
	<p>Users may change the First Name, Last Name, Date of Birth, Enrollment Begin Date, and the Monitor Begin Date if no monitoring events are associated to them. Otherwise, if the student has monitoring events associated, the user may change the Enrollment Begin Date and/or the Monitor Begin Date.</p> <p><i>Min Characters – 1 (this field is required)</i> <i>Max Characters - 35</i></p>
Actions to be performed	As the user enters the Last Name, it is displayed in the textbox in editable format.
h	Student (lastName)
Validation	None.

<b>Date of Birth:</b>	
Element	Textbox
Definition/Business Rules	<p>Allows a user to enter a student's date of birth.</p> <p>The Date of Birth textbox should be automatically populated based on the student's date of birth that is displayed on the Student Monitoring Detail screen.</p> <p>Users may change the First Name, Last Name, Date of Birth, Enrollment Begin Date, and the Monitor Begin Date if no monitoring events are associated to them. Otherwise, if the student has monitoring events associated, the user may change the Enrollment Begin Date and/or the Monitor Begin Date.</p> <p><i>Min Characters – 8 (this field is required)</i> <i>Max Characters – 10</i> <i>Masks - DOB must be entered with a "MMDDCCYY", "MM/DD/CCYY" or "MM-DD-CCYY" format.</i></p>
Actions to be performed	As the user enters the Date of Birth, it is displayed in the textbox in editable format.
Business Object (Attribute)	Student (DOB)
Validation	None.

<b>Enrollment Begin Date:</b>	
Element	Textbox
Definition/Business Rules	<p>Allows a user to enter the student's enrollment begin date.</p> <p>The Enrollment Begin Date textbox should be automatically populated based on the student's enrollment begin date that is displayed on the Student Monitoring Detail screen.</p> <p>Users may change the First Name, Last Name, Date of Birth, Enrollment Begin Date, and the Monitor Begin Date if no monitoring events are associated to them. Otherwise, if the student has monitoring events associated, the user may change the Enrollment Begin Date and/or the Monitor Begin Date.</p> <p><i>Min Characters</i> – 8 (this field is required)  <i>Max Characters</i> – 10  <i>Masks</i> – Enrollment Begin Date must be entered with a “MMDDCCYY”, “MM/DD/CCYY” or “MM-DD-CCYY” format.</p>
Actions to be performed	As the user enters the Enrollment Begin Date, it is displayed in the textbox in editable format.
Business Object (Attribute)	Student (enrollmentDetailAL)
Validation	None.

<b>Monitor Begin Date:</b>	
Element	Textbox
Definition/Business Rules	<p>Displays the current date when the user accesses this page.</p> <p>The Monitor Begin Date textbox should be automatically populated based on the student's monitor begin date that is displayed on the Student Monitoring Detail screen.</p> <p>Users may change the First Name, Last Name, Date of Birth, Enrollment Begin Date, and the Monitor Begin Date if no monitoring events are associated to them. Otherwise, if the student has</p>

<b>Monitor Begin Date:</b>	
	<p>monitoring events associated, the user may change the Enrollment Begin Date and/or the Monitor Begin Date.</p> <p><i>Min Characters</i> – 8 (this field is required)  <i>Max Characters</i> – 10  <i>Masks</i> – Monitor Begin Date must be entered with a “MMDDCCYY”, “MM/DD/CCYY” or “MM-DD-CCYY” format.</p>
Actions to be performed	As the user enters the Monitor Begin Date, it is displayed in the textbox in editable format.
Business Object (Attribute)	TransferMonitor (monitorBeginDt)
Validation	None.

<b>Submit</b>	
Element	Pushbutton
Definition/Business Rules	Allows a user to submit updates to a student's transfer monitoring information.
Actions to be performed	By clicking on the pushbutton, the user can submit their request to update a student's transfer monitoring information.
Business Object (Attribute)	None.
Validation	<p>An error message appears at the top of the screen for the following conditions:</p> <ul style="list-style-type: none"> <li> <p><i>Condition:</i> The user leaves the First Name field blank.  <i>Message:</i> Please enter a First Name.  <i>Location:</i> Client  <i>Additional Information:</i> The label font color for the First Name field becomes red. ### 3.8.3 Screen Functionality

The following section describes each object on the screen and the functionality behind the object.

Return to Student Monitoring Detail	
Element	Link
Definition/Business Rules	Allows a user to navigate to the Student Monitoring Detail screen.
Actions to be performed	When clicked, the Student Monitoring Detail appears.
Business Object (Attribute)	None.
Validation	None.

Delete Confirmation Statement	
Element	Label
Definition/Business Rules	<p>This statement confirms that the user would like to delete the student monitoring information.</p> <p>The following statement should be displayed:</p> <p>You are asking that this Student Monitoring record be DELETED from your List. Student Monitoring records should be deleted only if the student will not be attending your institution or the student was entered in error. Please do not DELETE a student simply to stop monitoring him or her. <b>To complete this DELETE, please click CONFIRM.</b></p>
Actions to be performed	None
Business Object (Attribute)	None.
Validation	None.

SSN	
Element	Label
Definition/Business Rules	<p>Displays the student's SSN.</p> <p>Mask – The SSN is displayed in the “123-45-6789” format.</p>
Actions to be performed	None.
Business Object (Attribute)	Student (SSN)
Validation	None.

First Name	
Element	Label
Definition/Business Rules	Displays the student's First Name.
Actions to be performed	None.
Business Object (Attribute)	Student (firstName)
Validation	None.

Last Name	
Element	Label
Definition/Business Rules	Displays the student's Last Name
Actions to be performed	None.
Business Object (Attribute)	Student (lastName)
Validation	None.

Date of Birth	
Element	Label
Definition/Business Rules	Displays the student's DOB.  <i>Masks</i> – DOB is displayed in the MM/DD/CCYY format.
Actions to be performed	None.
Business Object (Attribute)	Student (DOB)
Validation	None.

Enrollment Begin Date	
Element	Label
Definition/Business Rules	Displays the student's Enrollment Begin Date (the date when the student was reported to begin classes at the school).  <i>Masks</i> – Enrollment Begin Date is displayed in the MM/DD/CCYY format.
Actions to be performed	None.
Business Object (Attribute)	Student (enrollmentDetailAL)
Validation	None.

Monitor Begin Date	
Element	Label
Definition/Business Rules	Displays the student's Monitor Begin Date (the date when the NSLDS begin or will begin monitoring the student).  <i>Masks</i> – Monitor Begin Date is displayed in the MM/DD/CCYY format.
Actions to be performed	None.
Business Object (Attribute)	TransferMonitor (monitorBeginDt)
Validation	None.

Last Changed By	
Element	Label
Definition/Business Rules	Displays the name of the person who made the last update to this student's monitoring record, and the date that change was made. If there have been no updates since the student was added to the list, the name of the user who added the student displays here, as well as the date the student was added. If the student was added or

Last Changed By	
	last updated via batch process, Batch displays here.
Actions to be performed	None.
Business Object (Attribute)	TransferMonitor (lastChangedByName, lastChangedbyDate)
Validation	None.

Confirm	
Element	Pushbutton
Definition/Business Rules	Allows a user to submit their request to delete the student record.
Actions to be performed	<p>By clicking on the pushbutton, the record is deleted and the Transfer Monitoring List screen appears. The following message is displayed:</p> <p>Successfully deleted. The info.gif is also displayed.</p> <p>Once the deletion has been confirmed, the student's information will be removed from the Monitoring and Alert list(s). It does not delete the student from the Monitoring table; it just ends the Monitoring and removes the student from viewable lists online. A record of the deletion is maintained by the NSLDS for auditing purposes.</p>
Business Object (Attribute)	None.
Validation	<p>An information message appears at the top of the screen for the following conditions:</p> <ul style="list-style-type: none"> <li><i>Condition:</i> If the student is successfully deleted from the Transfer Monitoring List, the following message will appear in the Transfer Monitoring List screen. <i>Message:</i> Successfully deleted. <i>Location:</i> Servicer <i>Additional Information:</i> Display info.gif.</li> </ul>

### 3.9 Monitoring Alert Review

<b>Description</b>	Lists all transfer students on a school's transfer monitoring list to which changes have been reported.
--------------------	---

	<p>The NSLDS sends a school an Alert on any student listed on that school's Transfer Monitoring List whenever a relevant change has been reported on that student's record. Any NSLDS authorized online user for a school can view that school's current Alert list at any time via online. In addition, a school can request that any Alert generated be sent in a batch file via its SAIG mailbox.</p> <p>Changes that prompt an Alert for Loans are:</p> <ul style="list-style-type: none"> <li>• New loan reported (FFEL, Direct Loan, or Perkins)</li> <li>• New disbursement or reduction in disbursed amount on an existing loan (FFEL, Direct Loan, or Perkins)</li> <li>• A change in the Amount of Outstanding Principle Balance on an existing loan (FFEL, Direct Loan, or Perkins) New, increased, or decreased cancellation amount reported on a loan</li> <li>• Change in Amount of Loan (FFEL, Direct Loan, or Perkins)</li> </ul> <p>Changes that prompt an Alert for Pell Grants are:</p> <ul style="list-style-type: none"> <li>• New Pell Grant reported</li> <li>• New disbursement or reduction in disbursed amount on an existing Pell Grant</li> <li>• Changes in Pell Grant percentage</li> <li>• Change in Amount of Pell Grant awarded</li> </ul> <p>A student's record will be monitored until the 91st day after the Enrollment Begin Date reported by the school.</p>

Display error.gif.</p> </li> </ul>

SSN	
Element	Label
Definition/Business Rules	Displays the student's SSN.  <i>Masks</i> – The SSN is displayed in the “123-45-6789” format.
Actions to be performed	None.
Business Object (Attribute)	Student (SSN)
Validation	None.

Name	
Element	Label
Definition/Business Rules	Displays the student's first and last name.
Actions to be performed	None.
Business Object (Attribute)	Student (firstName, middleInitial, lastName)
Validation	None.

DOB	
Element	Label
Definition/Business Rules	Displays the student's DOB.  <i>Masks</i> – The DOB is displayed in the “MM/DD/CCYY” format.
Actions to be performed	None.
Business Object (Attribute)	Student (DOB)
Validation	None.

Change	
Element	Label
Definition/Business Rules	Displays a list of links to the changes that prompted the Alert.  If the student had a relevant change reported on a Pell Grant, the Pell link appears. Clicking <b>Pell</b> links you to the student's Pell Grant History page to view the change reported.  If the student had a relevant change reported on a loan, the Loan link appears. Clicking <b>Loan</b> links you to the student's Loan Detail page for that specific loan to view the change reported.

<b>Change</b>	
	If the student has changes to more than one loan, there are multiple links, each going to a different Loan Detail page. The links will be numbered "Loan 2, Loan 2, etc."
Actions to be performed	<p>Clicking <b>Pell</b> links you to the student's Pell Grant History page to view the change reported.</p> <p>Clicking <b>Loan</b> links you to the student's Loan Detail page for that specific loan to view the change reported.</p>
Business Object (Attribute)	None.
Validation	None.

<b>Reviewed</b>	
Element	Checkbox
Definition/Business Rules	<p>Allows a user to check the box once they have reviewed the change immediately to the left of the box.</p> <p>Checking the box determines the placement of the student's Alert record on the list.</p> <p>Clicking the link to the changed information does not check the box automatically.</p> <p>If the school requested that its Alerts be sent via Batch file, any change reported via batch is automatically checked online as Reviewed.</p>
Actions to be performed	<p>As the user selects the checkbox, a checkmark appears. If the user selects the checkbox again, the checkmark is removed.</p> <p>Checking the box determines the placement of the student's Alert record on the list.</p> <p>On Enter Submit pushbutton is enacted.</p>
Business Object (Attribute)	None.
Validation	None.

<b>Date Alerted</b>	
Element	Label

<b>Date Alerted</b>	
Definition/Business Rules	Displays the date when the NSLDS added the student's name/change to the Alert list and/or sent a batch Alert on the student to the school, if that's the chosen output method.  <i>Masks</i> – The Date Alerted is displayed in the “MM/DD/CCYY” format.
Actions to be performed	None.
Business Object (Attribute)	TransferMonitor (dtAlerted)
Validation	None.
